\* Teams cannot exceed the team size limit without the permission of the team coach. Managers must receive this approval from the coach before adding any player to the team past the team size limit. Teams under this number of players cannot refuse a player being added to the team.

\*\* Teams cannot exceed this limit except under approval from the Recreational Soccer Director, the Club Manager, and the team's coach.

\*\*\* These are ideal measurements. Some field sizes may vary. **(Pending US Soccer Guidance)**

\*\*\*\* Any player who is also involved in a program that requires tryouts are considered 'select' players, and fall under this cap.
